Technical

Skills:

- | | | | |
|----------------|--------------|-----------------|-----------------|
| • ActiveRecord | • HTML5/CSS3 | • MySQL | • Rspec |
| • AJAX | • jQuery | • Photoshop | • Ruby |
| • Git | • JavaScript | • PostgreSQL | • Ruby on Rails |
| • HandleBars | • JSON | • RESTFUL API's | • Sinatra |

Knowledge:

- | | | | |
|---------|---------------|----------|----------|
| • Ember | • Illustrator | • Node | • Sass |
| • GIMP | • Jasmine | • Python | • SQLite |

Projects

TechLX - ~~Source~~ – Completed a top to bottom Fullstack overhaul on this site including: Design, Mailer, Graphic Artist, DB, Schema & Deployment. Worked directly with executive team, taking design cues & implementing solid modular code according to their needs. Experienced a very enjoyable working dynamic throughout.

STACK: RUBY ON RAILS, JS, JQUERY, POSTGRESQL, GIT, CSS3, HTML5, BOOTSTRAP

MetaGame - Source - Team project developed at Dev BootCamp. One week from conception to production BETA. Our group of five spent 118 hours each working on this application during that time. This process really served to solidify my knowledge as a backend developer. We focused heavily on best practices in the Agile process, Git workflow, and MVC design. The app still has a long way to go and I look forward to contributing to this project with new skills as I bring them under my belt.

STACK: RUBY ON RAILS, JS, JQUERY, POSTGRESQL, EMBER, HANDLEBARS, GIT, CSS3, HTML5, BOOTSTRAP

Education

Dev BootCamp • San Francisco, California • 2014

- Intensive development training totaling 18 weeks
